

# Make a balloon propelled car.

while you are colouring in your car your grownups can be making holes in your bottle and wheels. Once this is done stick your car body to the bottle and push the axles through the holes

tape the straw to the balloon

Put the wheels on the axles

push the straw through the top hole and make it poke

out the neck

You will need:

- A Balloon
- A small pop bottle
- A Grown up
- 2 Axles (I used pencils)
- A straw
- 4 Milk bottle lids
- Colouring Crayons
- Sticky Tape
