

Bug race home

You will need:

4 cardboard tubes

A piece of thick cardboard

Scissors

A squeezezy bottle (e.g washing up liquid)

Paint or crayons

To begin decorate the tubes in a way you like.
Then you will need to cut an arch in the them.

Next cut out 4 circles of thick card.
They need to be small enough to fit through the arch!
On each piece of card draw a different insect.

Then you can start to race! Use the squeezezy bottle to blow your insects home. Race against family or how fast can you get them all home?

Dont forget to share to our facebook page!
