

## How to make Mrs Clifton's House

1

Take a grocery box and a cereal box

2

Cut off all the flaps except the top one

3

Slice the box in half right down the middle and push the two halves together

4

Use the discarded flaps as floors and tape them firmly

Add more floors and use scraps as a trim if you like.

5

6

Tape the cereal box to the other side

8

Paint your house and use black tape or paper to make beams. Glue on windows and a door

7

Make simple furniture from scraps like this.

Use PVA glue and pieces of newspaper to cover your house. Strip the paper side off some of the left over flaps and cover the roof to look like tiles.
