

## Make a Laurel Wreath Headress

Important Romans used to wear Laurel wreaths on their heads. This was similar to a crown to show they were special.

To make one you will need a paper plate or cereal box to make the shape and some green paper or magazines and some glue.

Start by cutting out the shape of the 'crown' to fit your head dont forget to leave a gap at the front.

Then you need to cut out lots of leaf shapes, you will then glue these onto your 'crown' so they overlap like this.
