

HOCKERTON
HOUSING NEEDS SURVEY
ANALYSIS

Introduction

During August/September 2006 a survey was carried out to ascertain the needs of people living in Hockerton. The survey aimed to discover: -

-  The current situation of the respondents.
-  Existing households in need.
-  The number of households with special needs and their specific requirements.
-  The numbers of residents migrating to other areas and the reasons why.
-  Affordability levels.

This survey uses the following definition of affordable housing: -

'Dwellings developed specifically for those whose incomes generally deny them opportunity to purchase or rent houses on the open market'

Survey Process

The Housing Need Survey was conducted by Carole Turner, Nottinghamshire Rural Community Council's Rural Housing Enabler in consultation and partnership with Hockerton Parish Meeting and Newark & Sherwood District Council.

A Housing Needs Questionnaire was posted to every house in Hockerton to ensure that every householder had the opportunity to participate in the survey. Completed questionnaires were collected by Hockerton Housing Project members.

In total 59 households received a survey form.

Conclusion

From a hand delivered survey of 59 households in Hockerton 54.2% of the survey forms were returned.

12 households expressed a need for new or alternative accommodation plus 5 households reporting that family members have moved away in the past five years due to difficulties in finding a suitable home within Hockerton.

Of the residents living in Hockerton who have stated they need alternative accommodation, none are currently living in a socially rented home.

- Note that under local plan policy H17 exceptionally in larger villages outside the Nottinghamshire green belt, planning permission will be granted for affordable housing for local needs on appropriate, small sites outside, but directly adjacent to, main built up areas, provided the district council is satisfied that a local need exists for the type and scale for the development proposed”

75% of respondents said they would be in favour of a small development of affordable housing in the parish.
