**Subject:** Allocations and Development Management DPD Final Mods

Dear Louise,

I wish to make the following comment in respect of the final modifications document.

FPM99  
Policy So/Ho/2

The final line of the proposed amendment should include the following to read..... 'appropriate mitigating measures, *if required*, should be addressed'

The traffic assessment already carried out indicates that there is no junction capacity issue either at Westgate/Halloughton Road or Halloughton Road/Nottingham Road. Whilst this will be tested by a formal planning application the policy should be open in respect of any off site highway requirements.
